“Powercor Australia is delighted to have received these Australian Maintenance Engineering Excellence Awards in recognition of the culmination of many years of hard work to implement best practice asset management. The ongoing support of our partners, The Asset Partnership, has been vital to our success.”

Vince Power, Manager Asset Management & Infrastructure, Powercor

The Australian Maintenance Engineering Excellence Awards 2003

The Asset Partnership's Director Phil Clarke (L) joins Powercor's Christine & Vince Power, Andrew McKay, Maria & Kieran Skelton, & John Garvey after the Gala Dinner award presentations.

The International Conference of Maintenance Societies (ICOMS 2003) was held in Perth 20-23 May 2003, and Powercor Australia (PCA) carried off two of the major Maintenance Engineering Society of Australia (MESA) Australian Maintenance Engineering Excellence Awards presented at the conference's Gala Dinner. These awards are the Australian maintenance and physical asset management community's equivalent of the "Oscars".

Powercor were finalist for three awards: the MESA Leadership award for Kieran Skelton, Network Manager; MESA Management Award; and the converted and prestigious Australian Maintenance Engineering Excellence Award. PCA won the Management and Engineering Excellence Awards. The Australian Maintenance Engineering Excellence Award was presented to Vince Power, Manager Infrastructure and Asset Management, by the Governor of West Australia, Lt Gen John Sanderson, AC.

The Asset Partnership has provided Asset Management & Reliability-centred Maintenance II thought leadership, guidance and training to assist in achieving award winning best practice asset management in the highly demanding electricity distribution network business and regulatory environment.

The Asset Partnership congratulates Powercor Australia on its success, and looks forward to the continuing success of our partnership.
